**Safe, Effective, Relief**

**CBD Plus THC Compounds**

**The Perfect Option for  
Achieving an Effective Dose!**

## Product Information

**Tinctures** - Historically, tinctures were solutions of herbs or other medicinal compounds in alcohol or water. Our tinctures are prepared in organic extra virgin olive oil and organic coconut oil without any alcohol.

**CBD:THC Ratios** - We did extensive research into different cannabis strains that were shown to be effective in alleviating symptoms in certain medical conditions. We replicated the phytochemical characteristics of the strain into our tinctures using different CBD:THC ratios, to provide effective relief for our patients.

**Instructions/Dosage:** Shake Well Before Use - Adults: Take 4 to 12 drops directly under the tongue. Hold for 60-90 seconds then swallow. Follow with water.

### Higher in CBD

#### 1:1 Ratio Relief Complex -

For Injury, Trauma, Inflammation and Pain
